

## Patient Registration for MLS Laser Therapy

Name \_\_\_\_\_ Date of Birth \_\_\_\_\_

Address \_\_\_\_\_

City, State, Zip \_\_\_\_\_

Email \_\_\_\_\_ Phone \_\_\_\_\_

Primary complaint:

Length of time with this condition \_\_\_\_\_

How did you hear about MLS Laser Therapy? \_\_\_\_\_

What is your pain level in the affected area?

No pain

Minor pain

Mild pain

Moderate pain

Severe pain

Worst pain

Check any of the following that apply to you:

Take medication that increases sensitivity to sunlight

Are pregnant

Been injected with steroids in the past 2-3 weeks

Take anticoagulants

Have HIV positive history

Have a cancerous lesion(s) or history of cancerous lesions

Have a seizure disorder that is triggered by light

Have a pacemaker

Have a spinal cord stimulator

Have a bleeding/clotting disorder

Leukemia

List medications you are currently taking:

For office use only:

Diagnosis \_\_\_\_\_ Robotic Laser Setting \_\_\_\_\_

Number of visits scheduled \_\_\_\_\_ Payment  Individual  Package

## Patient Registration for MLS Laser Therapy

### **Informed Consent for Laser Therapy**

Laser Therapy is a non-surgical application of laser light. Unlike most other forms of therapy, laser therapy is classified “actinotherapy” in that it results in a chemical and metabolic change of the involved tissues. As a result, laser therapy can relieve pain, decrease inflammation, accelerate the healing of tissue, increase blood flow and decrease tissue swelling.

Like all forms of medical treatment, there are associated risks as well as benefits. Exposure to the eyes during the procedure may result in damage of the retina. Under certain situations a superficial burn of the skin could occur. This is based upon skin pigmentation, skin discolorations (i.e. tattoos), or the use of topical creams, lotions or analgesic balms.

### **To prevent adverse reactions to laser therapy, all patients must adhere to the following guidelines:**

- Wear approved safety goggles during all laser treatment session
- Avoid the use of any topical creams, lotions or analgesic balms before or immediately after treatment
- Inform the technician of any skin conditions including skin sensitivity to light
- Remove jewelry or any shiny objects (watches, bracelets, chains, etc.) at or around the treatment area
- Clean the area of treatment thoroughly prior to your scheduled appointment

### **Insurance Coverage**

MLS Laser Therapy is cleared for clinical use by the FDA. Insurance reimbursement is very limited at best; therefore, we do not participate with any insurance plans at this time. While laser therapy is not yet covered by traditional insurance, it is affordable to most patients.

I have read the above paragraphs, and understand the information provided. The information provided has been explained to me, and all questions which I have asked have been answered to my satisfaction.

By signing below, I acknowledge that I wish to proceed with laser therapy, which my provider has deemed to be medically advantageous in the care and treatment of my condition.
